Sykes Power is Your Trusted Partner for Electrical Solutions from Switchgear and Transformers to Battery Energy Management Systems.

At Sykes Power, we streamline your operations by delivering top-quality medium and low voltage switchgear and transformers. We also supply battery energy management systems with unmatched efficiency. We handle the heavy lifting—coordinating with manufacturers and managing every aspect of project delivery—so you can focus on landing more business. Our expertise saves you time, reduces complexity, and ensures seamless project execution.

- **Comprehensive Solutions:** We supply a full range of switchgear, transformers, and battery energy management systems for military, government, civilian, and commercial job sites, meeting all required certifications and licenses.
- **End-to-End Project Management:** From sourcing to delivery, we manage every detail of your project, ensuring on-time, on-spec solutions tailored to your needs.
- **Trusted Expertise:** With deep industry knowledge and strong manufacturer relationships, we prioritize your time and provide reliable, high-performance equipment.

Partner with Sykes Power to simplify your supply chain, enhance efficiency, and power your projects with confidence.

Transformers

Our transformers are sourced from manufacturers in Asia, Europe, and North America. We offer a comprehensive array of transformer solutions to fit your needs:

- ▶ Padmount
- ▶ Polemount
- ▶ Dry-type
- ▶ Substations
- ▶ Mini Power Centers

Switchgear

Our switchgear solutions are sourced from trusted manufacturers in Asia, Europe, and North America.

- ▶ Metal-enclosed
- ▶ Metal-clad
- ▶ Padmount
- ▶ Powerhouses
- ▶ LI switches and mini LI switches
- ▶ Switchboards
- ▶ Vacuum Circuit Breakers
- ▶ Power Distribution Units, Static Transfer Switches, and Uninterruptible Power Supplies.

Battery Energy Storage Systems

We source cutting edge BESS solutions from trusted manufacturers in Asia and North America.

- ▶ Tier-one LiFePO4 battery cells with advanced BMS control.
- ▶ High Efficiency, Pure Sine Wave Inverters optimized for LiFePO4 batteries.
